SUBJECT: Service Menu Access

REVISION: Initial
Release

The following steps will allow you to enter the Service Menu on a PRO II, PRO II V and VersaCAMM series unit. These instructions reflect a change in this procedure.This change was created in Firmware version 6.3 for PRO II/PRO II V and version 5.6 for VersaCAMM series. (FJ-540, CJ-540, SJ-745/645/740/640/540, SC-545/540, SP-540V/300V/300) The SJ-1000/1045 and FJ-Pro series (FJ-600/500/400) will be changed soon.

Attention! The Service Menu is to be used by Roland DGA Authorized Service Technicians only!

<u>Steps:</u>

It is important you complete each step in sequence as directed.
1.   **1. The Main Power switch must be on, with the Sub-Power (front panel) switch off.**
2.   **2. Press the following keys in order :**
UP, LEFT, RIGHT, DOWN, LEFT, DOWN, RIGHT

3.   **3. Then, within 5 seconds, press the LEFT, RIGHT and DOWN keys SIMULTANEOUSLY while turning on the Sub-Power switch.**
4.   **4. If done correctly the unit will turn on and the front panel will display "Service Mode".**
5.   **5. If the front panel displays "Service Mode is protected", please shut off the Sub-Power switch and try again.**
