

The individual who bought my twenty year old sign business defaulted and filed for bankruptcy. I repossessed all the pledged collateral after two years and have the following items for sale:

Gerber D200E CNC Router PACKAGE – This package includes the Gerber D200 with engraving head option and extra router head, engraving bits, router bits, Gerber 3D V-Groove bits (only one of these bits has been used), 3D AutoCarve Gerber software and one legal copy of Omega 3.01 with security dongle.  
\$7,500

Gerber EDGE & Plotter PACKAGE -- Gerber Edge acquired in 1996 and Gerber HS-15 sprocket plotter and approximately 50 EDGE foils along with one legal copy of Gerber Omega 3.01 with security dongle.  
\$2,900

Gerber Odyssey PACKAGE – Gerber 48” Odyssey plotter with Gerber Drive and optical tracking for long, accurate cutting and one legal copy of Gerber Omega 3.01 with security dongle. \$3,400

Each Gerber Omega 3.01 software package can be upgraded to the current Version 6.0 for \$476 each if upgrading two or more at the same time or \$595 each if upgraded individually.
