

How to Change Ink Type of VS-640

1. HEAD WASH

Perform HEAD WASH. 8 SL-CL cartridges are necessary to do it.

2. Resetting ink mode setting

- SERVICE MENU > SUB MENU > CHANGE INKTYPE, set it to [UNKNOWN].
- SYSTEM SWITCH > PAGE 7, set it to [10000000].
- RESET INK MODE appears in SUB MENU. Press ENTER key in RESET INK MODE. Then the ink mode setting is cleared.
- SYSTEM SWITCH > PAGE 7, set it back to [00000000] to hide RESET INK MODE.

3. FILL INK

Perform the normal FILL INK.

2 SL-CL cartridges are necessary to do it.

* If you find ink mixture in the ink line after FILL INK, please perform the Powerful Cleaning or Choke Cleaning to remove the mixed ink.
