

## **SignSpring Gets Wet!**

Lind BannerFrame goes *REALLY, REALLY BIG* with a 40'x120' wallscape overlooking the Pacific Ocean in Guam.

At 350 feet high and 4800 square feet, we believe this could be the world's largest Oceanfront wallscape!

In under 2 hours, a four man crew and a swing stage installed the 40'x120' vinyl on the exterior Ocean Front wall at The Pacific Islands Club Resort.

Lind SignSpring Group provided the Lind BannerFrame system and printed the 4,800 square foot 7oz vinyl @ 300 dpi. Pacific Islands Club originally installed the system in March 2015 and has enjoyed the ease and versatility of the system enabling 4 easy change-outs in only 9 months.

Only patented Lind SignSpring combines simplicity, durability and flawless results with the easiest change-outs whether your display period is 4 weeks or 4 years!

Patented BannerSpring, PosterSpring and

BannerFrame provide exceptional, long term performance with quick installations and easy change-outs.

Developed and proven on Billboards in extreme Great Lakes conditions, SignSpring is unequaled on the smallest P-O-P banner displays to the largest urban Wallscapes and billboards.

Simple Spring and Hook technology means no Grommets, Cables, Frames or Clips, No Ratchets Wrinkles Sags or Rips.

Lind SignSpring is tough enough for Outdoor yet pretty enough for on-Premise. Visit [www.LindSignSpring.com](http://www.LindSignSpring.com) to watch installation videos and learn more.
