

# **ORAJET® Series 3751RA Wrapping Cast Digital Media with RapidAir® Technology**

## **Effortless Installations at an Extraordinary Price**

An ideal choice for challenging vehicle wraps, ORAJET® Series 3751RA features a low initial tack, repositionable grey adhesive, cast construction and an advanced air release system for highly conformable performance over difficult curves, corrugations and rivets. Series 3751RA is an 8-year, 2.25-mil film with a smooth surface producing vivid, life-like prints that can be removed with little or no adhesive residue for up to four years. Recommended for use with ORAGUARD® 290, 290GF and 293 laminating films.

## **Features and Benefits**

- |  |  |
|--|--|
| ✓ Low initial tack, repositionable adhesive                          | = Easier more forgiving installations  |
| ✓ Brilliant gloss-white finish                                       | = Produces vivid, life-like prints   |
| ✓ 2.25-mil cast film   | = Ideal for applications over uneven or curved surfaces, rivets and corrugations                 |
| ✓ 100% splice-free rolls, every time                                 | = No production downtime   |
| ✓ 8 year outdoor durability(unprinted)                               | = Optimal for long-term applications such as fleet, commercial signage and high-quality graphics |
| ✓ Unsurpassed dimensional stability under extreme outdoor conditions | = Minimal shrinkage guarantees long life of graphics   |
| ✓ Solvent-based acrylic adhesive system                              | = Allows adhesion to a wider variety of surfaces   |
| ✓ Revolutionary batch ID system                                      | = Provides outstanding quality control   |
| ✓ Compatible with a wide selection of popular printers               | = Solvent, eco-solvent, latex and UV curable   |
