

Ecocam E18 Carbide blades

Ecocam Carbide blades – E18

Universal blade for various materials, as cardboard, gasket material, foam rubber, cork, one-sided blade for fine lines

Cutting edges: 1

Length of cutting edge: 13,5 mm

Total length: 25 mm

Type: 6mm straight shank with Weldon surface

Used With ECOCAM Holder: EOT/TCM

Description: Round Point, Tip Center

Notes: Universal blade for various materials; use for fine contour cutting

blade	cutting edges	length of cutting edge	total length	type	typical applications
E12	2	12 mm	25 mm	6mm straight shank with Weldon surface	universal blade for various materials, as cardboard, gasket material, foam rubber, cork, useable on both sides
E18	1	13,5 mm	25 mm		universal blade for various materials, as cardboard, gasket material, foam rubber, cork, one-sided blade for fine lines
E25	1	25 mm	39 mm		universal blade for various materials, as cardboard, gasket material, foam rubber, cork, one-sided blade for fine lines
E28	1	30 mm	45 mm		universal blade for various materials, as cardboard, gasket material, foam rubber, cork, one-sided blade for fine lines
E30	1	2,5 mm	25 mm		special blade für TCM module; wedge blade for normal foils and writings
E50	1	3,5 mm	25 mm		special blade für TCM module; wedge blade for flock textile foils, felt, cardboard
E70	1	8 mm	25 mm		special blade für TCM module; wedge blade for flock textile foils, felt, cardboard, rubber
E85	1	50 mm	65 mm		special blade for EOT module; e.g. for soft polyurethane foam panels
E87	1	70 mm	83 mm		special blade for EOT module; e.g. for soft polyurethane foam panels
E92	1	120 mm	133 mm		special blade for EOT module; e.g. for soft polyurethane foam panels
