Table of Models that Support FWUpdateTool   Ver160419

AutoPRM Support

AutoPRM is supported at this model.

Models that support AutoPRM do not require PRM files. Add a check mark to AutoPRM to execute Upload/Download.

PRM Files Required

PRM files are required for each model when acquiring parameters. Obtain the PRM files from the Mimaki member's page.

For models that do not support AutoPRM, select a PRM file.

Press Enter during Log Acquisition

For this model, you must press the ENTER key on the printer when executing parameters upload to acquire a log. (If you do not press the ENTER key, only the parameters are acquired as usual.)
Log PRM Files Required

Log PRM files are required for each model when acquiring logs. Obtain the PRM files from the Mimaki member's page.

Log Tab Support

The Log Upload tab in FWUpdateTool is supported at this model. Logs can be acquired at this model. Operations such as pressing the ENTER key are not required.
