

Messer Pisau Lama Lame Н О Ж Нóż
Summa 390-534 36° Tangential knife Blade

Summa tangential knife blades for [Summa](https://www.china-oyea.com/) vinyl cutters and

plotters. The natural cutting action of tangential blades creates sharper corners and more precise cuts.

from tungsten carbide, our [Summa](#) vinyl cutter blades hold a sharp edge between 10 and 50 X longer than cheaper steel blades.

The expert craftsmanship and higher quality materials will extend the life of your blade and give you the best cut performance while the correct blade manufacturing spec will assure a proper fit and compatibility when used in the cutter.
