SUMMA 390-551 T-Series 36°

Double Edge Tangential knife Blade

The natural cutting action of tangential blades creates sharper corners and more precise cuts. Ideal for thicker material such as reflective. Fits most [Summa](#) Tangential cutters. Crafted from Tungsten Carbide, our genuine Summa blades hold a sharp edge between 10 and 50 X longer than cheaper steel blades.

Specifications

- Cuts material up to .010" (.25mm) thick
