**THE FINE PRINT**

This proof has been provided for your convenience in order to eliminate errors in the production of your project. Please take the time to review it thoroughly and verify that all aspects of the project are correct. If you notice any discrepancies or have ANY questions, please call the office immediately and speak to the art department. It is our intention to make your finished product as close to this proof as possible, however exact placement on vehicles may vary. The colors in this proof may vary on your personal monitor or printer; if you have any question as to the actual colors that will be printed we can verify color values over the phone or with a "press-proof". Verify any aspects such as finish size, spelling, colors, measurements or materials used in the construction/production of your project prior to proof approval. All vinyl graphics/wraps will have seams around 50" in size, this is unavoidable due to the printing process; if you require seamless graphics the price and process will have to be modified prior to approval and production.

**PROOF APPROVAL AREA**

Your signature below indicates acceptance of the proof as-is and approval for production. *Any changes caught after approval are the responsibility of the person(s) who submitted approval.*
