

Zund S3 Z61 Carbide Oscillating Knife Blade

The high quality generic blade corresponds to Zund part number 5201343, also called Z61 blades. [Zund Z61](#) is a very robust, heavy-duty oscillating blade. Z61 oscillating cutting blade is a high quality blade in solid tungsten carbide for application Zund digital cutter.

Product Introduction

The knife height of Zund [Z61](#) oscillating cutting blade is 31mm(0.2mm tolerance range), the knife width of Zund Z61 Oscillating cutting blade is 5.5mm(0.05mm tolerance range), the Pre-cut of [Zund Z61](#) oscillating blade is 2.5mm, the blade thickness of Zund Z61 oscillating cutting blade is 1.5mm(0.02mm tolerance range). Zund Z61 oscillating cutting blade has a cutting angle of 81.5° and a maximum cutting depth of 20mm.

Product Name	Zund Z61 blade
Code No	5201343
Size	31*5.5*1.5
Angle	81.5°

Type	Oscillating blade
Material	Tungsten Carbide
Type	Applications
Drag blades	Used in non-powered tools such as UCT, KCT, VCT, SCT, C2. Part suitable for Foils, Paper, Thin folding carton, PVC, Plastic, Light foam core etc.
Oscillating blades	Used in EOT/POT oscillating tools. Recommended materials: carton, Gasket materials, Foam, Leather, Rubber, Felt, Woven.
Rotary blade	Ecagonal (ten-sided) blades for DRT/PRT tools. Recommended for breathable materials such as textile, carbon fibre, glass fibre, etc.

EOT-250

POT, blade holder
1.5 mm
